SUMMARY

Undergraduate Computer Science student and Frontend-focused Full-Stack Developer with 1+ year of experience building AI-powered SaaS applications using React, Next.js, TypeScript, and modern web technologies. Experienced in LLM integration, scalable frontend architecture, and delivering production-ready products through cross-functional collaboration.

EXPERIENCE

Bamboo System Technology

Jun. 2026 – Jul. 2026

Software Developer Intern

Singapore (Remote)

- Built responsive Vue.js CMS for a production education SaaS platform
- Delivered 15+ AI-powered features across multiple application modules
- Completed 30+ development tickets while performing feature testing and bug fixes
- Improved application stability and user experience by debugging and optimizing frontend performance

Purple Box AI

Nov. 2025 - Jan. 2026

Front-end Developer Intern

Rome, Italy (Remote)

- Built a Next.js chatbot plugin that automatically indexed client website data across Shopify, WordPress, and WooCommerce
- Integrated 5+ backend APIs to power RAG-based conversations and document management
- Developed 8 responsive business analytics dashboards with real-time backend integration
- Collaborated with over 20 individuals to discuss and develop the application

Anastasya Bouquet

Aug. 2025 Feb. 2026

Full-Stack Developer

Malang, Indonesia (Remote)

- Led full-stack development of the e-commerce platform, architecting both frontend and backend systems
- Built a full-stack e-commerce platform for a bouquet store using Next.js, TypeScript, Prisma, and PostgreSQL, improving system performance by 50%
- Developed a responsive storefront and admin dashboard with CMS and product management, increasing operational efficiency by 85%
- Deployed the platform used by 100+ customers in Malang

PROJECTS

Neurofit 2.0 (AI Fitness & Nutrition Planner)

Feb. 2026 – Mar. 2026

Next.js, Convex, Gemini API, Clerk, Tailwind CSS

Shenyang, China

- Built an AI-powered fitness platform using Next.js, Convex, and Gemini 3.5 Flash
- Implemented personalized workout, nutrition, and grocery plan generation using structured AI outputs
- Developed an AI coaching chatbot with real-time streaming and location-based gym search
- Designed an interactive onboarding flow and dashboard for managing AI-generated fitness plans

TokenGecko (LLM Prompt Inspection Workbench)

Jul. 2026 – Present

Next.js, TypeScript, Monaco Editor, InsForge, TanStack Table, js-tiktoken

Shenyang China

- Built a developer platform for inspecting, benchmarking, and optimizing LLM prompts
- Implemented a Monaco-powered prompt editor with real-time token counting and syntax highlighting
- Developed multi-provider token and cost benchmarking across leading LLM providers
- Built prompt health analysis with optimization recommendations and shareable inspection reports

Anastasya (Florist Storefront & Admin)

Next.js, NeonDB, PostgreSQL, Prisma, Tailwind CSS

- Built and deployed full-stack e-commerce platform with Next.js, TypeScript, Prisma, and PostgreSQL
- Developed a responsive storefront with product discovery, editorial blogging, and WhatsApp ordering
- Built an admin dashboard with real-time analytics and CRUD management for products, categories, and blog content
- Implemented secure JWT authentication and data management with TanStack Table

Jan. 2026 - Mar. 2026

Malang, Indonesia

EDUCATION

Shenyang Aerospace University

Bachelor of Computer Science

- Coursework:** Data Structures, Computer Systems, Microcontroller, Information Security
- Projects:** Built e-commerce platform using Java (Quarkus) and conducted data analysis using Python

Aug. 2025 – Jul. 2027

Shenyang, China

State Polytechnic of Malang

Bachelor of Computer Science

- Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Web Programming
- Projects:** Developed Learning Management System (LMS) using Laravel

Aug. 2023 – Jul. 2027

Malang, Indonesia

CERTIFICATIONS & ACHIEVEMENTS

4th International Student Innovation Contest in Liaoning Province

Second Place - Resumy AI

- Awarded second place for developing Resumy AI, an AI-powered resume analysis platform using LLM technology
- Presented an innovative solution integrating artificial intelligence into career development workflows

Nov. 2025

Shenyang, China

Dicoding Indonesia

Machine Learning for Beginners

- Implemented basic machine learning models for classification and prediction tasks using Python
- Applied data preprocessing, feature selection, and model evaluation techniques

Jan. 2026

Remote

Skilvul

Basic React

- Built responsive single-page applications using React component-based architecture
- Applied reusable components and state management concepts to improve maintainability

Sep. 2025

Remote

HackerRank

Problem Solving (Intermediate)

- Solved algorithmic challenges involving data structures, recursion, sorting, and optimization

Aug. 2025

Remote

SKILLS

Languages : Indonesian (native), English (C1), Chinese (elementary proficiency)

Programming Languages : TypeScript, JavaScript, SQL (PostgreSQL, MySQL), HTML5, CSS, PHP

Tools : n8n, Figma, Postman, Vercel, Figma, Playwright, GitHub, Claude Code, Codex, Antigravity

Frameworks & Libraries : React.js, Next.js, Vue.js, Laravel, Prisma, TanStack, InsForge, Supabase, NeonDB, Convex, Clerk, Tailwind CSS, Motion, Framer, Shopify, Wordpress, Woocommerce,
