Education

State Polytechnic of Malang & Shenyang Aerospace University

Expected Graduation: Jul 2027

Double Degree Program - Bachelor of Computer Science

Indonesia - China

- Current Semester: 7 — **Cumulative GPA: 3.36/4.00**
- Courses: Software Engineering, Machine Learning, Operating Systems, Microcontroller

Work Experience

Bamboo System Technology

Jun 2026 – Jul 2026

Software Developer Intern

Singapore (Remote)

- Debugged and resolved bugs in the **ATD Flutter application**, improving performance by **80%**
- Implemented **15+ AI-powered features** using **Codex**, reducing development time by **65%** across multiple modules
- Tested and debugged **FUREN**, an AI-powered educational platform to assist students with university applications

Purple Box AI

Nov 2025 – Jan 2026

Front-end Developer Intern

Rome, Italy (Remote)

- Developed a **RAG chatbot plugin** embedded into Shopify, WordPress, and WooCommerce
- Integrated **Railway** hosted backend APIs for a **RAG-based** chatbot plugin
- Built **8 business analytics dashboards** while collaborating with **20+ individuals** throughout development

Anastasya Bouquet

Aug 2025 – Feb 2026

Full-Stack Developer

Malang, Indonesia (Remote)

- Built a full-stack e-commerce platform with responsive storefront and admin dashboard
- Implemented **WhatsApp-based** checkout and CMS-based content management
- Led the development and deployment of the platform, reaching **100+ users** across Malang

Projects

CareerOps (AI Job Tracker Workbench)

Demo | GitHub

- Built an **automated job tracker** for ingesting recruiter emails and tracking hiring pipelines
- Synced interview schedules with smart reminders to **Google Calendar** and automated stage transitions
- Implemented a **two-tier AI triage** with deterministic ATS parsers and **confidence gating**

Neurofit 2.0 (AI Fitness & Nutrition Planner)

Website | GitHub

- Built an AI-powered fitness platform generating personalized workout, nutrition, and grocery plans
- Developed an **AI coaching agent** with real-time streaming and location-based gym search
- Designed an interactive **onboarding flow and dashboard** for managing AI-generated fitness plans

Bobby Logistics (WhatsApp CS Automation)

Demo | GitHub

- Built a **WhatsApp logistics automation** for intent routing, screenshot extraction, and shipping calculations
- Implemented **stateful workflows** for customer conversations, order tracking, and data validation
- Developed **two-tier AI triage** to reduce LLM calls and escalate complex cases

Awards

4th International Student Innovation Contest (GenXtra)

Nov 2025

Second Place among Liaoning university teams

Liaoning, China

- Awarded second place for developing an AI-powered resume analysis platform leveraging open-source LLMs (Qwen)
